## **Animal Control Patrol**

Featuring: John Mark Erdelyan – **Animal Control Officer**

### General Synopsis for Episode #506A

This Pets.tv episode showcases the day in the life of SEAACA **Animal Control Officer** John Erdelyan. His job is to protect and save all types of animals in the community who are lost, injured, abused, abandoned and/or homeless. During the show, Officer Erdelyan's first call is to rescue a duckling and take it to a wildlife rehabilitation center for birds. Unfortunately, the duckling does not survive and the audience is provided information why many baby ducklings do not live. The next call is a Code 904, unspecified animal in custody, which turns out to be a captured possum caught in a trap. It will be relocated away from the city. Officer Erdelyan shows how to catch a rooster and a technique he uses to calm the rooster down. He also rescues a found Chihuahua with no identification. The viewers are reminded that all pets need identification so that they may be returned to their owners. All animals are brought back to South East Area Animal Control Authority (SEAACA) to be logged, documented and photographed so owners can go online to find their lost pets or help with adoption of rescued animals.
